

**DESCRIPTION**

**A-RSBP, A-200 – Retrieval Seal Bore Packer**

The A-RSPB is a single or dual trip Hydraulic Set Retrieval Packer designed to withstand high full differential pressure while the seal assembly is latched into the packer.

The Packer is equipped with Bi-directional slips and cones which ensure effective pressure induced force distribution into the casing.

It is equipped with an alternate bore above the Body, which has a larger ID, thereby allowing for the Anchor Latch Seal Assembly to seal in the largest possible ID.

**FEATURES**

- High Pressure and Temperature applications, upto 10,000 psi and 400°F.
- Set Hydraulically in one trip
- Straight pull shear release

**BENEFITS**

- Left Hand release latch thread
- Conventional Anchor Latch can be used
- Straight pull release

**APPLICATIONS**

- Straddle packer installation
- Liner Top isolation
- Isolation Packer
